

400ml Size Pneumatic Dual Gun

For use with 400ml dual cartridges, mixer nozzles and fittings

Pneumatic Dispenser Gun for Two-Component Cartridges

A well balanced and versatile air-powered cartridge gun for epoxy type two component side by side cartridges. This applicator device is very well built and suitable for industrial applications. This is a rod driven gun. Air pressure can be set on the adjustable regulator to adjust the rod forward and reverse speed. This allows the gun to be set to suit the viscosity of the resin and the flow rate required to suit the application.

For epoxies, adhesives and other materials that are supplied in 400ml two part, side-by-side 1:1, 2:1, 4:1 and 10:1 ratio cartridges with the use of a static mixing nozzle. The balanced and durable construction of our dual guns make them well suited for many assembly operations in various markets such as aerospace, electronics, construction and automotive. Gun supplied with quick change kit to adapt to the different cartridge ratios. All products are industrial grade and are covered by our no-quibble One Year warranty.
