Manual Operated Applicators
for use with Syringe Barrels

2022/ 23

Adhesive Dispensing Tools

SYRINGE BARREL DISPENSERS

Manual syringe barrel guns for applying controlled deposits of liquids to thick pastes. For making controlled beads with reduced hand fatigue when compared to using hypodermic syringes. The materials applied include silicone RTVs, sealants, epoxy resin compounds, UV cure glues, anaerobic thread lockers, primers, liquid activators, lubricants, oils, grease, solder pastes, braze pastes, PVA glues and much more. Applied without mess, waste, drips or hand fatigue.

Syringe Gun Dispenser

Red Colour, Plastic Body, Plastic Rod

Hand operated applicator guns for 10cc, 30cc and 55cc size syringe barrels. Red moulded hard plastic body with grey colour plastic plunger rod. Top button rod release. Moulded bayonet adapter head to accept barrel twist-on/ twist off.

Can be ordered gun only or with full barrel, piston, cap and assorted tip kits. Fixed rod movement. ADL brand.

MONDAY TO FRIDAY 9AM TO 5.30PM

Reasons to use our dispensing components

- Industrial grade** - certified safe for use to 100 psi. Will not break when in use under pneumatic or mechanical pressure.
- Certified Silicone-Free**. Our components will not contaminate fluids placed when in use including specialist adhesives.
- Burr-free**. All blunt tips are electro-polished and produced to a high precision finish.
- Widest range** - we stock millions of parts in many different styles and an extensive range of cartridges, nozzles, mixers.
- Fast lead times**. Most products are held in stock and available within days not weeks.
- Boxed** - most of our tips are supplied in sealed boxes for easy identification and protection against contamination.
- Batch codes** - all labelled with batch codes for traceability.
- Expert support**. We recommend our products to ensure our customers receive the right solution for their application.
