Forestry First Aid Kits

HSE Workplace First Aid guidelines apply to any workplace, both indoors and out.

Employers are required to provide comprehensive First Aid cover for workers in all situations and should be available to employees at all times.

Active Forestry First Aid Kit

The Active Forestry First Aid Kit has a content suitable for a smaller team of workers. The Active bag is compact and versatile; can be carried via shoulder or belt strap when working remotely. The belt strap folds neatly away behind a Velcro pad when not required.

Durable, rip resistant and easy to clean our Active Bag is extremely practical in all pursuits.

- Internal, external side pockets
- Adjustable shoulder and belt straps
- Secure key holder
- Strong, water-resistant, highly visible material

First Aid for Burns

Burnshield Products

Burnshield is a simple to use gel impregnated burn treatment designed to lower skin temperature and alleviate pain prior to hospital treatment.

- Available as dressings or blankets. Suitable for treating first, second and third degree burns and scalds.
- Manufactured from open cell foam, all dressings come saturated in a water based gel made sterile by gamma irradiation.
- Simple to apply and remove without causing any discomfort, Burnshield soothes and moisturises the burn area by inhibiting fluid loss.
- All items may be purchased individually to replenish used stock.

84070	Burn Blott 3.5ml - Pack of 10	B
84030	Burnshield - 10cm x 10cm	B
84032	Burnshield - 20cm x 20cm	B
84034	Burnshield - 60cm x 40cm	B
84040	Burnshield Blanket	C
84074	Burnshield Hydrogel - 50ml	B
84075	Burnshield Hydrogel -125ml	B

Burnshield Hydrogel

- Absorbs and dissipates heat - minimises burn damage
- Cooling - pain relief and shock reduction
- Clear - easy to assess wound
- Non-stick - will not adhere to wound
- Natural anti-bacterial
- Non Toxic
- Non Irritant

Burnshield Dressings

- Foam based dressing for optimal heat dissipation.
- Conforms to wound area
- Fibreless elastic opencell foam sheeting
- Wound covering

Burns Responder Kits

First Response First Aid Kits comply with the BS8599-1 Standard plus many additional items which could be required when treating a patient who may be some distance from a static First Aid Station.

MediKit's Deluxe Burns Responder kit has the greatest variety of hydrogel dressings in different sizes, all supplied in our first aid holdall for greater mobility.

- Detachable shoulder straps
- Internal compartments for easy storage and access.
- The bags have extra space which can be used to include additional products.

Sharps Handling & Disposal

This range is designed for the potentially hazardous task of handling discarded sharps such as needles and syringes, blades and other sharp objects that may be contaminated.

IMPORTANT:

- Always assess the elements of risk before commencing the removal task
- Always make sure that all protective clothing and equipment required is available
- Never put any part of the body into areas where there is a restricted or unclear view

Hex Armor Gloves

Highest needlestick resistance available provided by the layering of SuperFabric brand material

- Tested using actual 25 gauge hypodermic needles
- Highest level of cut resistance in enhanced areas; European standard EN388 Cut Level 5

Sharps Disposal Kits

Sharps such as contaminated needles and syringes, knives, blades and broken glass can puncture the skin and act as a vehicle for the transmission of harmful micro-organisms.

- Adjustable head pad and patient restraint
- Impervious to bodily fluids
- Aluminium alloy materials
- Easy to clean
- 5 year warranty

Specification:

- Size Open: 136cm (H) x 52cm (W) x 90cm (D)
- Size Folded: 112cm (H) x 52cm (W) x 20cm (D)
- Chair Weight: 10kg
- Maximum Load: up to 159kg

95080 Evacuation Chair C

Patient Wheelchair

Ideal as a part time wheelchair, these chairs also prove very popular in nursing homes, hospitals and public areas.

Features:

- Folding back
- Fixed arm rests
- PU wheelchair tyres
- Storage pouch on back rest
- Rear wheel locking brakes
- Neatly folds for storage or transportation
- Swing away foot rests with height adjustment

Specification:

- Maximum User Weight: 115kg or 18 Stone
- Device Weight: 14.5kg or 32lbs
- Overall Height: 89cm • Height Folded: 74cm
- Overall Width: 59.5cm • Width Folded: 30cm
- Overall length: 93cm • Length without Footrests: 46cm

95025 Wheelchair

C

Scoop Stretcher

Firm, lightweight, easy to clean and operate.

Features:

- Twin safety lock for smooth locking and unlocking
- Recessed head section to maintain patient's cervical alignment
- Four length options to accommodate the patients height
- Thermally-treated polymer material
- X-ray translucent

Specification:

- Product Size: 7cm (H) x 44.5cm (W) x 162cm (L)
- Gross Weight: 8kg • Loading Bearing: 159kg

98204 Break Away Scoop Stretcher

C

Neil Robertson Stretcher

Features:

- Designed for confined space rescues • Folds neatly during storage
- Multiple patient restraint straps keep patient immobilised
- Ideal for situations requiring vertical lifting
- Used by the Royal Navy, Merchant Navy, in Mining Industries and the Emergency Services.

Specification:

- Size: 165 (L) x 102 (W) x 5cm (H)
- Load bearing: 159kg & Weight: 3.5kg

NEW

98202 Neil Robertson Stretcher

C

Vacuum Immobilisation Mattress

Features:

- Capable of immobilising patients with all kinds of injuries including spinal and neck
- Constructed from isolative and cold resistant PVC
- Compatible with X-ray and MRI examinations
- Promotes patient comfort and reduces the risk of pressure sores
- Safely adjust the stretcher to be soft or hard using the dual action pump

Specification:

- Head width: 80cm
- Middle width: 88cm
- Feet width: 80cm
- Length: 200cm
- Weight 10kg

NEW

98102 Vacuum Immobilisation Mattress

C

Evacuation & Rescue

Duo-Fold Stretcher

The Duo-Fold stretcher requires minimum storage space when not in use, folds both horizontally and vertically into the compact dimension shown. The frame is manufactured from aluminium and is both strong and lightweight.

Features:

- High strength aluminium alloy frame
- Waterproof, fireproof and anti-cracking
- Complete with fully zipped carry bag and straps
- Hi-Vis Orange
- Easy to clean

Specification:

- Size: Open 14cm (H) 52cm (W) 206cm (L)
- Size: Folded 10cm (H) x 18cm (W) x 103cm (L)
- Stretcher Weight: 5.5kg
- Maximum Load: up to 159kg

98106

Duo Fold Pole Stretcher

C

Basket Stretcher

Sturdy, flexible and is used in all types of rescue/recovery situations. With its special lifting sling equipment, the stretcher is ideal for use with a helicopter winch.

Features:

- Adjustable feet, safety belts and mattress
- Fire resistant
- High resistance to everyday wear and corrosion

Specification:

- Product Size: 19cm (H) x 61cm (W) 216cm (L)
- Load bearing: less than 159kg
- Gross Weight: 20kg

98227

Basket Stretcher

C

98228

Basket Stretcher Lifting Harness

C

Basket Stretcher - 2 Piece

Sturdy, flexible and is used in all types of rescue/recovery situations. With its special lifting sling equipment, the stretcher is ideal for use with a helicopter winch.

Features:

- Easy to store, breaks apart into 2 pieces
- Adjustable feet, safety belts and mattress
- High resistance to everyday wear and corrosion

Specification:

- Product Size: 216 (L) x 61 (W) x 19cm (H)
- Folded Size: 130 (L) x 61 (W) x 26cm (H)
- Packing size: 135 x 64 x 28cm
- Load bearing: less than 159kg
- Weight: 20.5kg
- Fire resistant

98225

Basket Stretcher - 2 Piece

C

Spinal Board

The spinal board is made of PE material with no discharge contaminator, and firm to wear. Typically used to carry patients and injured persons after sustaining injury outdoors.

Features:

- Floatable device for water rescue situations
- Compatible with most head immobilisation devices and strap mechanisms
- X-ray translucent

Specification:

- Product size: 7cm (H) x 45cm (W) x 184cm (L)
- Load bearing: less than 159kg
- Gross Weight: 9kg

98206	Spinal Board	C
-------	--------------	---

Patient Transfer Sheet

Features:

- Lightweight and compact, supplied with carry case
- Multiple carry straps with ten strategically placed handles
- Easy to clean vinyl material

Specification:

- Size: Open 204cm (L) x 71cm (W)
- Maximum Load: up to 159kg

98229	Patient Transfer Sheet c/w Carry Case	C
-------	---------------------------------------	---

Cervical Collar

The foam cervical collar is used for cervical injuries requiring non-rigid support and limited mobility. Can also be used as an aid for the relief of pain associated with neck muscle or whiplash injuries.

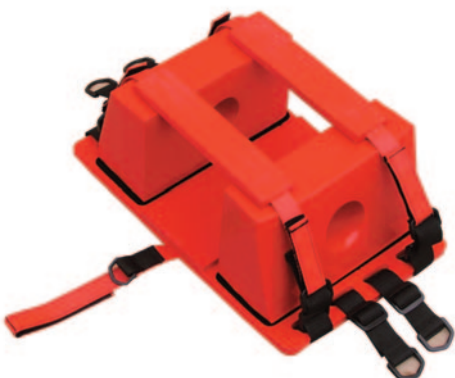

Features:

- Soft foam is slightly contoured for a comfortable fit
- Covered with 100% cotton stockinet and a Velcro closure
- Loop contact closures for adjustability

98240	Cervical Collar - Blue	C
-------	------------------------	---

98241	Cervical Collar - Grey	C
-------	------------------------	---

Head Immobiliser

Made of high-density plastic material, large ear holes for monitoring the patient's ear canal.

Features:

- Compatible with scoop stretcher and spine board
- Minimal interference with X-Ray, MRI, or CT scanning procedures
- Water-resistant plastic coating makes it easy to clean and prevents bacterial growth

98217	Head Immobiliser	C
-------	------------------	---

Defibrillators

Mediana Semi Automatic Defib

- Supplied with a protective outer cover
- Switches on automatically when opened
- Defibrillator pads are constantly connected and ready for use
- A combination of LED indicator lights, visual icons and clearly spoken audible voice prompts, make the AED safe to use even by untrained persons
- Simple flip switch sets the machine to either Adult or Paediatric, the pads are suitable for both situations
- The battery is a disposable LiMnO2 Non-Rechargeable version with two years shelf life, and five years standby life

95604

Mediana Semi-Automatic Defibrillator

B

Mediana Semi Automatic Defib Bundle

Includes:

- Mediana Semi Automatic Defib
- SD Card
- AED Prep Kit

AED Prep Kit contents:

- 1 Cleansing Wipe
- 1 Clinical Waste Bag
- 1 Disposable Razor
- 1 Gloves (Pair)
- 2 Hand Towels
- 1 Resusciate
- 1 Heavy Duty Clothing Shears

95624

Mediana Defib Bundle Pack

B

Pads

- Pads are suitable for both Adult and Paediatric

Outdoor AED Cabinet - Alarmed

Specification:

- Power 200W/230W
- Adjustable Bulb Thermostat
-30°C to 30°C
- Armour Resistance AM
- d.8/22, AISI321, 1x200W, 23V
- Cable 1.3m
- Degree of Protection IP44
- Installation requires hard wiring to suitable outlet

Features:

- Manufactured from 4mm thick Carbon Steel
- Shatterproof Transparent Window
- Outdoor Weather Resistance
- Anti-theft Radio with Magnetic Sensor
- Thermally Regulated Heating System
- Alarm System (105db) with battery back up
- Independent remote to arm/disarm the siren
- Magnetic sensor
- Optional padlock
- Safe and Visible
- Wall Mountable

95606	AED Outdoor Heated Wall Cabinet Alarmed - 480 x 425 x 215mm	B
95605	AED Metal Wall Cabinet Alarmed - 460 x 300 x 140mm	B

AED Metal Wall Cabinet - Alarmed

- Toughened durable glass door
- Compatible with most AED models
- Alarm sounds when opened
- Lockable
- Safe and Visible
- Quick Release Push-Button
- Fixed shelf for added storage
- Wall mountable
- Size 46cm (H) x 30cm (W) x 14cm (D)

Universal AED/Defibrillator Bracket

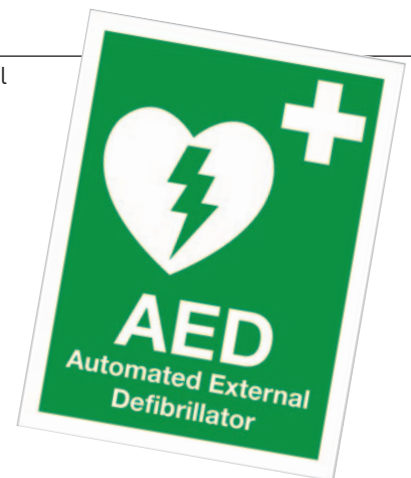

- Sturdy metal bracket is ideal for mounting any AED on a wall
- 12.3cm (H) x 19cm (W) x 9.5cm (D)

Fire Extinguishers

Fire Risk Assessment Guide

Commissioning of a new extinguisher and servicing should be carried out by a trained person as set out in British Standard BS: 5306-3: 2009.

- ✓ **Risk Assessment**
Is there an appropriate recording system?
- ✓ **Fire Fighting and Fire Detection**
Is there appropriate equipment on site?
Is fire fighting equipment clearly identified and locatable?
Are there nominated people who are trained for fire emergencies?
Are all emergency routes and exits clearly identified and illuminated?
- ✓ **Emergency Escape Routes**
Do emergency routes or exits lead to a place of safety?
Are everyone's needs catered for in event of an emergency escape?
Are dangerous areas restricted to authorised personnel only?
- ✓ **Maintenance**
Is fire fighting equipment fully maintained and serviced with written documentation?

Under The Regulatory Reform (Fire Safety) Order 2005, the employer or 'responsible person' for that building must ensure that a fire risk assessment has been conducted and that appropriate steps have been put into place to remove or reduce risks.

- ✓ **Procedures for Serious/Imminent Dangers and Areas**
Are all authorised persons given equipment to protect them from risks?
Are all dangerous substances clearly identified and safety data sheets provided?
Are all dangerous substances kept in appropriate storage?
- ✓ **Provision of Information for Employees**
Can the responsible person provide comprehensive information of risks to employees as identified by the risk assessment?
Are all off-site employees given relevant information on fire risks and preventive and protective measures on the premises?
- ✓ **Training**
When they began their employment, were all employees given adequate safety training?
Has all training been officially recorded?

Fire Classification	Foam	ABC Powder	CO2	Water	Wet Chemical
Flammable solids Wood, paper, textiles, fabrics etc.	YES Smothering & cooling effect	YES Rapid smothering effect prevents re-ignition	NO	YES Saturation & cooling prevents re-ignition	YES

Flammable gases Propane, Butane, Natural gases	NO	YES	NO	NO	NO
Electrical equipment Computers, printers, etc.	NO Some restricted use	YES	YES Non-conductive	NO Water is conductive	YES 35KV dielectric test

Powder Fire Extinguishers

MediKit's range of Dry Powder extinguishers are suitable for class A, B and C fires, meaning they can tackle most fires involving wood/paper, flammable liquids and electrical fires.

WG10106	600GM ABC 5A/21B	C
WG10102	800GM ABC 21B	C
WG10114	1.0KG ABC 8A/34B	C
WG10124	2.0KG ABC 13A/89B	C
WG10132	3.0KG ABC 21A/113B	C
WG10134	4.0KG ABC 27A/144B	C

WG10142	6.0KG ABC 43A/223B	C
WG10148	9.0KG ABC 55A/233B	C

Foam Fire Extinguishers

Our foam extinguishers achieve high fire ratings for both A and B class fires, making them highly effective against ordinary wood/paper fires (A class) and also petrol and volatile liquids (B class). The foam forms a flame smothering seal over the surface of the burning material which prevents re-ignition.

- 35kV dielectric test
- Internal Polyethylene lining
- Complete with spray nozzle

WG10112	1.0LTR 5A/21B	C
WG10130	2.0LTR 5A/34B	C
WG10144	6.0LTR 21A/144B	C
WG10149	9.0LTR 27A/233B	C

Wet Chemical Fire Extinguishers

Designed for Class F fires, Wet Chemical extinguishers are ideal for kitchens and caravans where cooking oils and fats are the risk. Independent fire tests have established that it is capable of extinguishing a fire in a 25 litre deep fat fryer.

WG10146	6.0LTR 21A/113B/75F	C
---------	---------------------	---

CO2 Fire Extinguishers

CO2 extinguishers are used for situations involving flammable liquids and electrical hazards. The CO2 extinguishant is harmless to delicate equipment making it ideal for office environments.

- Harmless to machinery
- Aluminium alloy construction

WG10128	2.0KG 34B	C
WG10138	5.0KG 70B	C

Water Fire Extinguishers

Designed, developed and tested in the UK for use on A-class fires, this product carries the well-known Kitemark, LPCB and MED certification achieving superior results in tests.

- Includes 35kV dielectric test
- Fluoro Free additive
- Internal Polyethylene lining

WG10140	6.0KG 13A	C
WG10150	9.0KG 21A	C

Vehicle and Fire Safety

Vehicle Fire Extinguishers

This range is effective on vehicle fires making them great extinguishers to have in the car or van. The premium travel brackets have a clip in metal arm which hold the extinguisher securely in place during transit.

- Fully Approved by LPCB (UKAS Accredited)
- Approved to BSEN3
- Holds 5 year guarantee

WG10116	1.0KG ABC 5A/34B Premium Travel Bracket	B
WG10126	2.0KG ABC 8A/55B Premium Travel Bracket	B

Vehicle Fire Extinguishers

The small size of this extinguisher makes it ideal for cars, vans, caravans, taxis and the home.

- EN3 Approved (except clause 6.1 size)
- UKAS accredited
- Holds 5 year guarantee

Advantages of dry powder

- Quick knockdown when correctly applied
- Safe to use on Electricity up to 1000 volts
- Effective on running fires such as petrol, diesel and oils
- Creates no thermal shock for fires onto hot metal, effective on undercarriage fires
- Good heat shield, creates an effective shield against radiated heat
- Can be used on all class fires A, B and C
- Effective on a range of temperatures from 15 to +60 degrees Celsius, unlike water based extinguishers such as foam, which can freeze.

Vehicle Safety Kit

Suitable for Private Motorists supplied in a zip bag complete with handle/shoulder strap.

Contents:

- One Person Travelling First Aid Kit
- Fire Extinguisher
- Warning Triangle
- Glass Hammer

Winter Safety Kit

An essential kit for the winter months, supplied in a nylon bag for easy storage within a vehicle.

Contents:

- Folding Snow Shovel in Nylon Pouch
- One Person Travelling First Aid Kit
- Foil Blanket
- Hi-Vis Vest

-----	---	---

PR5	Fold Out Bum Bag - Green 270 x 160 x 45mm	A
-----	---	---

Training Manikins

Professional CPR/AED Training Manikins

Realistic to the eye and the touch and available individually or in convenient multipacks of four for class training purposes; these manikins are uniquely designed as a clamshell that accommodates an easy-to-insert face shield lung bag.

- The CPR Rate Monitor allows for instant feedback to both instructor and student regarding the rate of chest compression. The face/head tilt feature is unique and the manikin simulates the way an actual victim's head would move if he required CPR
- Realistic looking and acting manikin
- Easy to transport and set up
- Easy to insert face shield and lung bag
- Face shield is secured, no need for adhesives
- Full chest rise and lung bag ensures students receive the most accurate and realistic training by observing a true chest rise
- Face/head tilt demonstrates how to open the airway during CPR
- Clicker mechanism demonstrates how to administer adequate compressions

Cotec Finger Protection Tape

Cotec Safety Tape

Protects fingers, hands and wrists from minor injuries and abrasions in industrial processes.

Cotec tape can be used in any industrial operation where unprotected skin can be damaged. It can be applied selectively so that only the vulnerable area needs to be covered, reducing the cost while improving operator comfort.

The tape sticks to itself and does not leave any residue.

- Prevents cuts and sore fingers
- Protection against hot parts or mouldings
- Prevents finger prints on glass or polished surfaces
- Prevents product contamination by body oils and acids on fingers
- Guards against thread burns
- Quick to apply
- Open gauze allows skin to breathe
- Applying further layers increases protection

Cotec Safety Tape is available in 300mm packs cut into 25mm widths. Each roll is over 27 metres long.

In Industry

Assembly: To help protect fingers while pig-tailing, twisting and winding wires, or handling sharp components, fittings and circuit boards.

Hand sewing: For comfortable protection of fingers from abrasions during the sewing process.

Buffing and Grinding: Protect from abrasions in many machining and welding operations.

Mouldings: Protects the fingers when handling hot parts in moulding and pressing operations when gloves are not necessary.

80136	Cotec Finger Protection Tape Green - Pack 12	A
80137	Cotec Finger Protection Tape Blue - Pack 12	A

Disposable Gloves

MediKit's range of disposable gloves are:

- Powder Free: Low particle count reduces risk of product contamination
- Grip: Textured fingertips for improved grip
- Rolled Cuff: For additional strength and prevention of liquid roll back
- Freedom from Holes: AQL 1.5

Finex Latex Disposable Gloves

- Strong: Made from natural latex
- Sensitive Skin: Special processing reduces proteins and toxins which can cause sensitisation and irritation

40923	Finex Small - Box 100	B
40924	Finex Medium - Box 100	B
40925	Finex Large - Box 100	B
40926	Finex X-Large - Box 100	B

Sterile Gloves

40940	Sterile Latex Gloves - Pair	B
40941	Sterile Nitrile Gloves - Pair	B

Finite Powder Free Nitrile Disposable Gloves

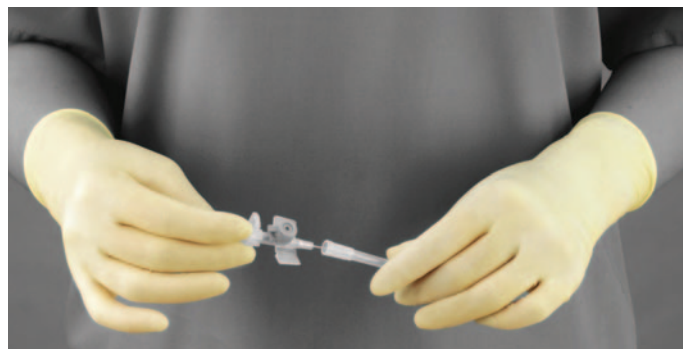

- Strength: Synthetic rubber offers better puncture and abrasion resistance than natural rubber or vinyl
- Comfort: Soft elastic material feels cooler and is more comfortable and flexible to wear
- Sensitive Skin: No latex proteins – eliminates protein sensitisation

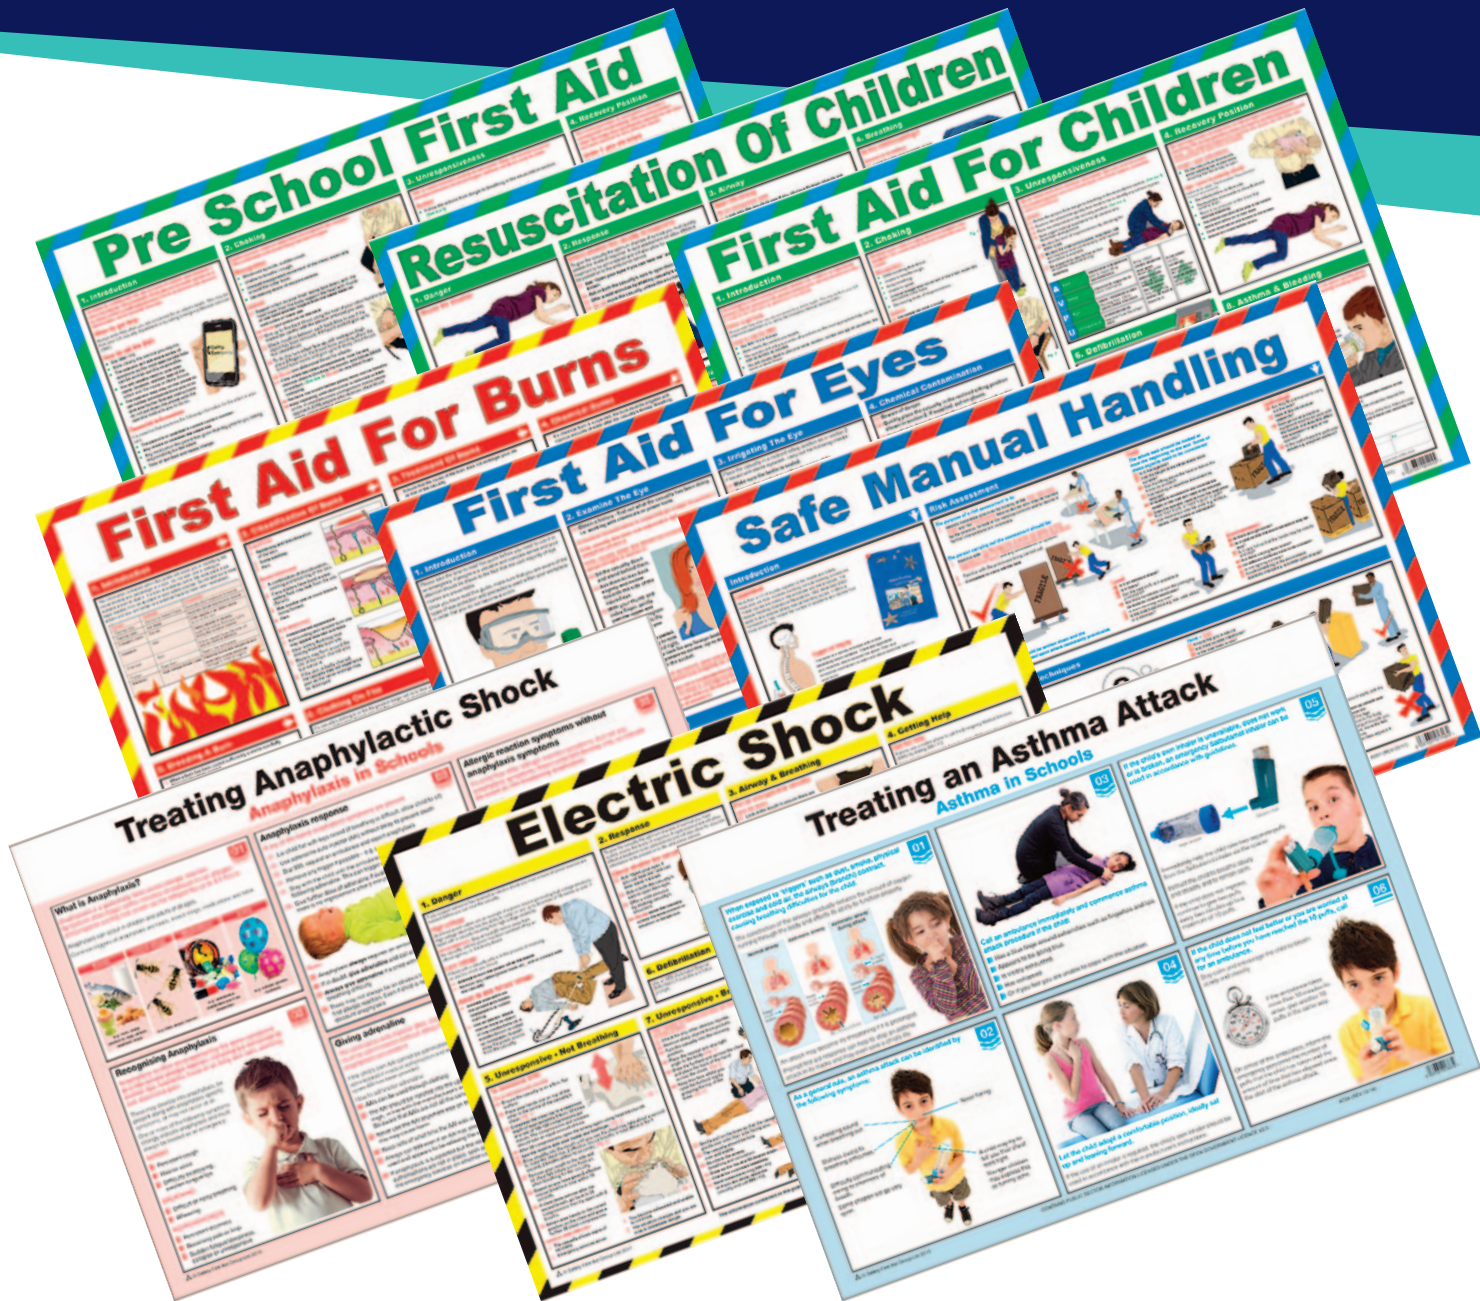

40942	Finite PF Medium - Box 100	B
40944	Finite PF Large - Box 100	B
40945	Finite PF X-Large - Box 100	B
40946	Finite PF XX-Large - Box 100	B

Finesse Powder Free Vinyl Disposable Gloves

- Sensitive: A thin powder free vinyl glove, with an excellent fit that feels like a second skin
- Sensitive Skin: No latex proteins - eliminates protein sensitisation
- Comfort: The soft vinyl formulation of Finesse PF provides greater comfort and is more flexible and dexterous to wear

40927	Finesse PF Medium - Box 100	B
40928	Finesse PF Large - Box 100	B
40929	Finesse PF X-Large - Box 100	B

Health and Safety Law
What you need to know

All workers have a right to work in places where risks to their health and safety are properly controlled. Health and safety is about stopping you getting hurt at work or ill through work. Your employer is responsible for health and safety, but you must help.

What employers must do for you

- 1 Think what could harm you in your job and the measures to stop it. This is part of risk assessment.
- 2 Be a safe, well-maintained, well-trained and fit you who is responsible for the job.
- 3 Consult and work with you and your health and safety representative or protecting committee from harm in the workplace.
- 4 Free of charge give you the health and safety training you need for your job.
- 5 Free of charge provide you with any equipment and protective clothing you need and ensure it is properly looked after.

What you must do

- 6 Think what you could do to harm you and others, such as drinking water.
- 7 Provide adequate first aid facilities.
- 8 Report any injuries and incidents to your supervisor and the Health and Safety Executive (HSE).
- 9 Have someone that you can go to for help at work or ill through work. They'll be a first aid or first aid officer, or a first aid or first aid officer who can refer you to a doctor.
- 10 Work with any other employees or contractors sharing the workplace or providing services such as agency workers, or the contractor's health and safety in premises.

If there's a problem

- 1 If you are worried about health and safety in your workplace, talk to your employer, supervisor, or health and safety representative.
- 2 You can check in your union for general information about health and safety at work.
- 3 If, after talking with your employer, you are still worried, you can find the address of your local enforcing authority for health and safety and the Enforcement Method Advice Service on 0800 909 6969.
