Decra®Set Resin Bound Paving

Additional information

Smooth contemporary finish with zero stone migration.

Extremely hard-wearing and is suitable for vehicular traffic weighing no more than 7.5 tonnes.

Choose from a wide range of aggregates with sizes 6 – 10mm or bespoke blends.

The average depth of 15 – 22mm or 40 – 100mm depending on location and intended use.

Surface life expectancy up to 15 years and can last up to 20 years if the subbase is good quality.

We wouldn't hesitate to recommend HMS

“We've worked with HMS Specialist Surfacing for many years and they have never let us down. Their communication exceeds expectations and all projects are finished to an excellent standard.”

Naomi Brown, Director,
S Brown Paving Ltd

Groundworks and substrate completed by other contractors.

Base build-up should be Mot Type 1 or open textured binder coarse tarmac.

“We wouldn't use anyone else!”
