

30cc Manual Syringe Gun Dispenser

For applying pastes, gels, silicones, fluxes, glues & more

AD Series Manual Dispensers

Technical Information

Product Description

Manual syringe gun dispensers are designed for the controlled application of most pastes, gels, adhesives, silicones and fluids. A simple and cost-effective dispensing gun for use with all standard 30cc/30ml sized syringe barrels. Perfect for lower volume product assembly, product re-work, repair work and remote field work.

Syringe guns offer a dispensing solution for applying most low to medium viscosity materials. Including flux, PVA glues, adhesives, grease, gels, silicones, greases and other liquids. A portable and lightweight dispenser adding control and consistency. A 7:1 ratio mechanical leverage for effortless trigger movement. The rod moves back slightly after each deposit to reduce oozing and drooling.

Press the rear lever to release the plunger rod for barrel attachment. Simply slide in the barrel for a secure connection. Barrels are held to the syringe gun by the flange top. This ensures the barrel does not break or move under constant use of hand pressure.

Specification

Part Code: AD730SG
Weight: 0.12kg/ 0.22lbs
Gun Length: 135.0mm
Maximum Thrust: 1.0kN
Handle Material: Glass Filled Nylon
Frame Material: Glass Filled Nylon
Rod Material: Nylon
Tool Component Approvals: REACH
Cartridge Capacity: 30mL (30cc)
Mechanical Advantage Ratio: 7:1
Viscosity: Low/Medium
Colour: Grey Body/ Black Rod
Commodity Code: 90289090
Origin: Asia
Brand: Adhesive Dispensing Ltd
Warranty: 1 Year

This 30cc sized dispenser is also available conveniently supplied complete with our full component kit (order part AD730SG-KIT). This basic gun is shipped with the following: -

- 1 x 30cc Polypro Barrel (Choose Clear, Black or Amber Colour)
- 1 x 30cc White PE Wiper Piston
- 1 x 30cc Orange PE Snap-on End Cap Seal
- 1 x Orange Polypro Twist-On Tip Cap Seal
- 5 x 18 Gauge PE Green Smooth Flow Tapered Tip

If ordering part AD730SG-KIT, a full component kit is included with the gun. This includes (50) barrels, (50) pistons, (50) end caps, (50) tip caps and (50) assorted dispensing tips. Do not use this product with Cyanoacrylate adhesives, rapid curing pre-mixed 2K epoxies or very high viscosity sealants. Contact us for more suitable dispensing solutions for handling these materials.

Key Features:

- Lightweight and Portable
- Robust Construction Materials
- Works with industry standard barrels
- Available gun only or with full kit
- Reduced hand fatigue for dispensing
- Easy to load and simple to use
- For dispensing a wide range of materials
