

Fabulous Products. Amazing Tin.

TINPLATE

— EXQUISITELY PACKAGED —

We're a family business with almost four decades of experience creating bespoke, world-class tin products.

We've worked with amazing clients and products in just about every industry and sector you care to name. In fact, there's a very good chance you've already held one of our products in your hands. You just didn't realise we made it.

We produce innovative, creative and award-winning packaging, but just as importantly, delivering on time and to the highest possible standards. We love taking on new challenges in order to test our experience and technical expertise, so we can stay at the forefront of the industry.

Your Friendly Off-site Packaging Team.

You can visit us at our office and showroom near Malmesbury, Wiltshire, and we have a factory in Trowbridge that offers our contract packaging service. Our technical and quality control team is well placed to guarantee the best print and production quality, enabling us to create the tin packaging you need at a competitive price and bang on time.

Our manufacturing facilities are located in China, where our products are produced to internationally recognised quality certification standards. They also have to pass meticulous ethical and technical assessments on a regular basis.

Feel special.

We want to give delight to anyone who picks up a tin product. It's that love that makes us go the extra mile, to deliver something elegant or charming, a tactile product where you think: well, that's a bit clever! That means not only do your products feel special and get noticed, but you do too.

Here's how we go about making our impeccable tin products.

Our process.

Design.

We're always looking how to get the best out of things, to take your designs and recommend the best possible ways to express aspects like colours and embossing, ensuring your tin has real stand out appeal in today's crowded shelf space.

Develop.

We care about understanding exactly what our clients need and then help to take things to the next level. We might have thought of a more elegant way and provide you with alternative options at the proofing stage, so you can see just how great your packaging can be.

Deliver.

One of the most crucial things for our clients, in addition to having a brilliantly packaged product, is having that product in the right place at the right time. So we ensure prompt delivery for your products and peace of mind for you.

Our Values.

Trusted by World Renowned Brands.

VIP Customer Service.

Kind to the Environment.

Meticulous Quality Control.

Our Mission.

We want to bring your visions to life by listening, collaborating and by being completely transparent throughout the whole process.

Our Vision.

We want to give delight to anyone who picks up a tin product. As simple as that.

'We're a fun bunch. Come and say hello at our head office and showroom, and get to meet some of the lovely people with whom you'll be working.'

If you can imagine it, we can make it. We're able to tool, create, and manufacture custom-made tins to the most detailed specification.

Bespoke Tins & Endless Possibilities.

Our extensive knowledge of tin printing and production ensures you get the very best guidance when creating a new tin, and a fabulous product at the end. Our wide range of existing moulds enables us to offer a variety of shapes, styles and sizes at a minimum set up cost. Minimum order quantity for bespoke tins is typically around 3,000-5,000. Please call our sales team to discuss your packaging needs in more detail.

'As one of our clients, we'd love to invite you into our development zone. Here you have exclusive access to our wide and varied portfolio of tooling, with unlimited search functions allowing you to tailor the perfect packaging solution.'

THE GOLD
Cacao Pod Tin Containing

As well as our bespoke product packaging, we hold a wide range of silver tins and metal boxes in UK stock.

Stock Tins.

These are brilliant for those working to a tight schedule, or who require smaller quantities.

Making It Personal.

Our range of stock tins benefit from a minimal lead time and a low minimum order quantity and still remain highly customisable. We are able to offer screen printing and embossing on the lids of the tins for logos, pictures or a phrase. The print and embossing can be applied separately, or combined to create a stunning raised effect.

We can also offer labels, either for lids or to wrap around the body of a tin. These are a great choice to add colour or different artworks across a single order of tins.

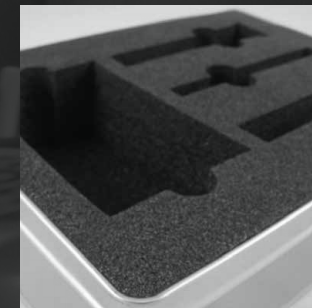

We are also able to supply foam inserts to ensure that your product sits inside a stock tin to display the contents in a smart, professional way, with a perfect fit and extra security.

Packaging and packing all under one roof.

Our own contract packing facility enables us to offer packaging and packing all under one roof. That means we're able to help with your tin products and packaging all the way through the project should you need to outsource this part of the process.

We use tamper seals where we need to, laser jet best before dates if required and make sure to keep your packaging intact throughout. After all, we were part of the packaging design ourselves so we know how much it means to you. It's an extra service we love to do, and we genuinely relish moments such as those refined tea tins leaving our facility, ready to be opened by delighted tea-drinkers at home.

**Fortnum & Mason.
Exquisite tin for exquisite teas.**

“We were delighted with the finished product and the results it has produced. The design stands out on the shelves, illustrates the exquisite infusions inside and is a beautiful keepsake that many customers will continue to treasure in their home.”

Creative Director

Harrods.
Exquisitely designed with
luxury in mind.

"I've dealt with Tinline for many years and have found them to be an essential part of our dealings with customers who often require high quality, complex design and strict adherence to colour standards. I trust them to produce excellent quality work, and the customer service has been exceptional from day one. They are experts in their field, and I have no hesitation in recommending them to anyone who is looking for tins - they are a flexible, competent and professional organisation."

Director

Penhaligon's. Beautiful must-keep tins.

“Our Christmas tin range has been amazing and Tinplate are part of that success. Thank You!”

Sourcing Manager

Multiple Award Winning.

“A captivating design that goes far beyond the role of simply packaging the product. An enchanting piece of brand theatre in its own right, which will be kept and treasured for years to come.”

Judges comment

A top-down photograph of a person's hands holding two round chocolate chip cookies with white chocolate chips and almonds. The person is wearing a grey sweater. To the right, they are holding a cylindrical tin of Whittard biscuits. The tin is decorated with a vibrant blue and gold floral pattern. The label on the tin reads "Whittard Cranberry & White Chocolate Chip All Butter Biscuits" and "A very Christmasy biscuit with chunks of creamy white chocolate & juicy red cranberries 150g e 5.29oz". The background is a rustic wooden surface with scattered flour, a sieve of flour, and stalks of wheat. A gold lid with the Whittard logo is also visible on the right.

Whittard

Three new-shape caddies
with a decadent floral finish.

"Whittard have worked with Tinplate for many years, and we have always found them a supportive business partner.

As our business has evolved Tinplate have risen to the challenges and demands we have faced, and have always been fully supportive.

They have a fantastic ethos as a business, and are both creative and solutions based, finding ways to always meet our ever changing requirements."

Head of Buying & Creative

Soap and Glory.
Charismatic tin packaging that's
cost-effective.

“The iconic ‘The Righteous Butter’ had run its course in rigid card packaging and it was time to give it a makeover. Within a couple of weeks the prototype was complete, this really helped to bring the product to life without the dated old-style packaging, and the icing on the cake was the cost! When comparing the new tin with the old rigid card there was no hesitation; Boots made the transition to tin packaging and improved their margin, the tin continues to repeat year after year.”
