

Decra®Print from HMS®

HMS Decra®Print Imprinted surfacing is a hot applied resin based compound. It is a modern alternative to blocks, slabs, and cobbles.

HMS Decra®Print offers a modern and highly efficient alternative to traditional block paving and concrete Imprinted Surfacing. Decra®Print is a resin based compound that will not suffer colour loss over time like some concrete products, and will not lift and move as with block paving.

Key Facts

- Imprinted Surfacing is suitable for commercial and industrial application such as; bus lanes, speed pads and general traffic calming.
- Suited to village gateways, heritage areas and for urban regeneration schemes.
- Easy maintenance, can be vacuum swept or jet washed. No weed growth
- Available in a wide range of colours and can replicate many patterns including block paving, cobbles granite sets and paving slabs.
- Quick installation with minimal site preparation
