

Shield clamp BIG for large diameters

PRODUCT DESCRIPTION

The shield clamp BIG for large diameters features a wide clamping range, thus allows an excellent contact of cable shields with large diameters.

The stripped cable has to be pressed into the shield clamp. The spring pressure of the clamp offers constant contact with the cable shield.

The shield clamp is available for direct assembly with an M4 screw, with clip foot for assembly onto a 35 mm DIN rail and with a flexible flat tape connector with a length of 50 mm. The accessory component mounting adapter allows the assembly onto C-rails.

ADVANTAGES

- // wide clamping range
- // constant contact with cable shield due to spring pressure
- // high conductance
- // flexible earth connection

TECHNICAL DATA

Material: galvanised spring steel, nickle-plated spring steel, tin-plated copper
