Semi crystalline thermoplastic sealant scrapers for the
aviation industry & other sealant tools

www.adhesivedispensing.co.uk

Manufactured and specifically designed for the aircraft industry. sealant scrapers are manufactured from a semi-crystalline thermoplastic which is a Boeing and Airbus approved material for sealant removal.

It is safe for use on bare alclad aluminium air frames and surfaces. The material makeup of our scrapers provides good pliability and strength whilst also being chemically resistant. The semi crystalline thermoplastic is the preferred material choice for aircraft manufacturers because it offers to the end-user more control when removing sealant and eliminates risk of scratch or score damage on aluminium substrates.

In addition to removing aircraft sealants, sealant scrapers are also fit for use with the removal of stickers, decals, loose paint and surface contaminants, where damage may otherwise occur to the underlying skin or structure.

Scraper products are easily identifiable in the working environment because of luminous red dye used for our product line making it highly visible, therefore from a quality control perspective FOD risk is minimalized when in use on the aircraft.

QA/QC

Scraper 3-step QC process guarantees that only the highest quality plastic products are delivered to our customers.

We understand there is a wide range of industry standards out there, which is why our 3-step policy is in place to ensure we deliver a product that can be trusted across multiple trades and disciplines.

Aerospace sealant scraper

Part Code: TS1275-4
Material: Semi-Crystalline Thermoplastic (Celcon)
Colour: Red
Width: 0.75" (19.05mm)
Length: 5.75" (146.5mm)
Details: Single Scraper, Silicone-Free, Boeing Approved

Aerospace sealant scraper

Part Code: AD-AS1
Material: Semi-Crystalline Thermoplastic (Acetal)
Colour: Red
Width: 0.79" (20mm)
Length: 6.32" (157mm)
Details: Single Scraper, Silicone-Free, Boeing Approved

Aerospace sealant scraper

Part Code: AD-AS2
Material: Semi-Crystalline Thermoplastic (Acetal)
Colour: Red
Width: 1.56" (40mm)
Length: 6.32" (157mm)
Details: Single Scraper, Silicone-Free, Boeing Approved

Aerospace sealant scraper

Part Code: AD-AS3
Material: Semi-Crystalline Thermoplastic (Acetal)
Colour: Red
Width: 0.28" (7mm) End 1 - 0.79" (20mm) End 2
Length: 8.80" (220mm)
Details: Single Scraper, Silicone-Free, Boeing Approved

Offering high tensile strength, stiffness and toughness which helps them retain a sharp edge. They are resistant to hot water, hydrocarbons and solvents and can be used for sealant application, sealant removal, paint removal and other general uses. Scrapers can be resharpened.
