

**ARBOUR**  
LANDSCAPE SOLUTIONS

# Welcome to the world of Arbour Landscape Solutions

*The Landscape Supply  
Company That Puts  
You First*

We supply over 7000 landscaping materials to landscapers, garden designers, architects, builders, property developers and self-builders across the UK. Our stock-holding located in Leighton Buzzard, Bedfordshire holds a wonderful range of porcelain, natural stone, limestone setts, clay pavers, split-faced tumbled limestone walling and pabblestones along with all of the paving installation accessories needed to lay fantastic patios.

These core products are available all year round for our clients to access for collection and for weekday deliveries throughout the UK.

We welcome guests to visit us for by-appointment only tours around the showroom stock-holding, an opportunity to see and the feel the materials you wish to specify, discuss upcoming projects with our landscaping specialists, and walk away with free samples of your preference.

## Limestone Paving

Our beautiful Limestone paving offers an affordable option for both traditional and modern garden designs.

This timeless material has endless amounts of character and with every piece being unique you can be assured that your client has something that stands out with inherent natural beauty.

## Limestone Setts

Our Limestone Setts are full of immense character and can be used for edgings, driveways, paths, patios or as a walling stone.

All our Limestone Setts compliment the Limestone Paving Range.

## Split Faced Tumbled Limestone Walling

Split Faced Tumbled Limestone Walling. The soft, creamy-beige tones, liberally sprinkled with fossils and crystals make for a highly tactile material that exudes character. Tumbled edges give that lovely 'bedded in' look often associated with traditional stone structures.

## Paddlestones

Paddlestones are exactly what's needed for bringing structure, shape and form into the landscape. Available backed off (reduced widths) for simple and faster wall construction. All our Paddlestones are available in Golden Yellow & Grey Colours.

## Clay Pavers

A collection of UWF Tumbled Clay Pavers from Wienerberger in a rich array of early colours. These beauties are created using 100% natural constituents and traditional methods. They make an excellent alternative to natural stone.

---

## Porcelain Paving

For easy care surfaces that ooze style and sophistication, choose porcelain paving and steps. Selected designs are available with 1-2 day delivery lead times direct from our stock holding or for weeday, anytime collection.

## Bespoke Finishes

Arbour Landscape Solutions supports clients with free technical advice when specifying landscape materials for unique projects. We can source precisely what you require for unique stone finishes, copings and setts to really set your project apart.

Bespoke treatments to the entire paving range can be applied to achieve exactly the finish our clients require.

The Bespoke service includes full specification and product sourcing services.

# Business Tools

As a registered customer of Arbour Landscape Solutions, you will gain access to thoughtfully designed business tools that will support your procurement and invoicing process. Clients can add multiple users from their team to enable swift quote building for multiple projects.
