

2.5 Ounce Size Cartridge Gun

For use with cartridges, nozzles and fittings

Part ID: 100A-25
Construction: Stainless Steel/ Aluminium/ Nylon
Colour: Silver/ Black
Attachment: Threaded Retainer to Handle
Weight: 750g
Warranty: 1 Year

Cartridge gun dispensers are designed for the controlled application of sealants, pastes, gels, adhesives and fluids. High quality cartridge gun dispensing systems.

The 100A-25 is a lightweight, pneumatic operated, high quality dispensing gun designed to accept cartridges for the application of sealants, adhesives, potting compounds, and many other materials packaged in disposable cartridges or Techkit, Semkit multi-component materials.

The product is made of metal, aluminium and plastic for tough, durable, long-term use.

A threaded retainer provides a tight fit into the ratchet handle, permitting uninterrupted operation. Suitable for use with 2.5 Ounce size (75cc) cartridges that allow the use of plastic nozzles. Needle tip adapters can also be used with the cartridges for attachment of all standard needle tips.

Cartridges are inserted into the cartridge gun threaded retainer. This ensures the cartridge does not move under constant use from hand pressure. An adjustable regulator allows user to set the flow rate. All products are industrial grade and are covered by our no-quibble One Year warranty.
